- **Closing the Window: Steps to Living Porn Free** by Tim Chester

CONTENT GUIDE WEBSITES:

- **Smart Social:** www.smartsocial.com
The goal of this site (not faith-based) is to help parents and kids understand the importance of leaving “healthy social footprint” when it comes to shaping their future for education (like college) or career. It is especially focused on social media. The spot on the site I would especially like to direct your attention to is the [App Guide](#). They also offer brief videos explaining the app and how it works.
- **Protect Young Eyes:** www.protectyouneyes.com
This site is very similar to Smart Social, offering reviews for apps and devices. They also feature a downloadable app that features specific training videos (for a monthly charge) for parents.
- **Plugged In:** www.pluggedin.com
In my opinion, this site is the closest you can come to a one-stop shop for parents to be educated on entertainment media (movies, music, tv, games, and books). It provides content overviews as well as faith-based reviews for parents.
